

兔抗 ABCC2 多克隆抗体

中文名称：兔抗 ABCC2 多克隆抗体

英文名称： Anti-ABCC2 rabbit polyclonal antibody

别名： DJS; MRP2; cMRP; ABC30; CMOAT

抗原： ABCC2

储存： 冷冻（-20℃）

宿主： Rabbit

反应种属： Human

相关类别： 一抗

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

The protein encoded by this gene is a member of the superfamily of ATP-binding cassette (ABC) transporters. ABC proteins transport various molecules across extra- and intra-cellular membranes. ABC genes are divided into seven distinct subfamilies (ABC1, MDR/TAP, MRP, ALD, OABP, GCN20, White). This protein is a member of the MRP subfamily which is involved in multi-drug resistance. This protein is expressed in the canalicular (apical) part of the hepatocyte and functions in biliary transport. Substrates include anticancer drugs such as vinblastine; therefore, this protein appears to contribute to drug resistance in mammalian cells. Several different mutations in this gene have been observed in patients with

	Dubin-Johnson syndrome (DJS), an autosomal recessive disorder characterized by conjugated hyperbilirubinemia.
Applications:	ELISA, IHC
Name of antibody:	ABCC2
Immunogen:	Synthetic peptide of humanABCC2
Full name:	ATP-binding cassette, sub-family C (CFTR/MRP), member 2
Synonyms :	DJS; MRP2; cMRP; ABC30; CMOAT
SwissProt:	Q92887
ELISA Recommended dilution:	2000-10000
IHC positive control:	Human liver cancer
IHC Recommend dilution:	30-150
