

兔抗 ABCB11 多克隆抗体

中文名称：兔抗 ABCB11 多克隆抗体

英文名称： Anti-ABCB11 rabbit polyclonal antibody

别名： BSEP; PGY4; SPGP; ABC16; BRIC2; PFIC2; PFIC-2

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： ABCB11

反应种属： Human, Mouse, Rat

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

The membrane-associated protein encoded by this gene is a member of the superfamily of ATP-binding cassette (ABC) transporters. ABC proteins transport various molecules across extra- and intra-cellular membranes. ABC genes are divided into seven distinct subfamilies (ABC1, MDR/TAP, MRP, ALD, OABP, GCN20, White). This protein is a member of the MDR/TAP subfamily. Members of the MDR/TAP subfamily are involved in multidrug resistance. The protein encoded by this gene is the major canalicular bile salt export pump in man. Mutations in this gene cause a form of progressive familial intrahepatic cholestases which are a group of inherited disorders with severe cholestatic liver disease from early

	infancy.
Applications:	ELISA, IHC
Name of antibody:	ABCB11
Immunogen:	Synthetic peptide of human ABCB11
Full name:	ATP-binding cassette, sub-family B (MDR/TAP), member 11
Synonyms :	BSEP; PGY4; SPGP; ABC16; BRIC2; PFIC2; PFIC-2
SwissProt:	O95342
ELISA Recommended dilution:	1000-5000
IHC positive control:	Human ovarian cancer and Human lung cancer
IHC Recommend dilution:	15-50
