

## 兔抗 MIF 多克隆抗体

中文名称: 兔抗 MIF 多克隆抗体

英文名称: Anti-MIF rabbit polyclonal antibody

别 名: GIF; GLIF; MMIF

相关类别: 一抗

储 存: 冷冻(-20℃)

宿 主: Rabbit

抗 原: MIF

反应种属: Human, Mouse, Rat

标记物: Unconjugate

克隆类型: rabbit polyclonal

## 技术规格

Background:	This gene encodes a lymphokine involved in cell-mediate d immunity, immunoregulation, and inflammation. It play s a role in the regulation of macrophage function in hos t defense through the suppression of anti-inflammatory e ffects of glucocorticoids. This lymphokine and the JAB1 p rotein form a complex in the cytosol near the peripheral plasma membrane, which may indicate an additional role in integrin signaling pathways.
Applications:	ELISA, WB
Name of antibody:	MIF
Immunogen:	Synthetic peptide of human MIF
Full name:	macrophage migration inhibitory factor (glycosylation-inhi biting factor)

Synonyms:	GIF; GLIF; MMIF
SwissProt:	P14174
ELISA Recommended dilution:	2000-5000
WB Predicted band size:	12 kDa
WB Positive control:	Jurkat , Hela and HT-29 cell lysates
WB Recommended dilution:	200-1000
