

兔抗 ELAVL1 多克隆抗体

中文名称：兔抗 ELAVL1 多克隆抗体

英文名称： Anti-ELAVL1 rabbit polyclonal antibody

别名： HUR; Hua; MelG; ELAV1

抗原： ELAVL1

储存： 冷冻（-20℃）

相关类别： 一抗

宿主： Rabbit

反应种属： Human, Mouse

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

The protein encoded by this gene is a member of the ELAVL family of RNA-binding proteins that contain several RNA recognition motifs, and selectively bind A U-rich elements (AREs) found in the 3' untranslated regions of mRNAs. AREs signal degradation of mRNAs as a means to regulate gene expression, thus by binding AREs, the ELAVL family of proteins play a role in stabilizing ARE-containing mRNAs. This gene has been implicated in a variety of biological processes and has been linked to a number of diseases, including cancer. It is highly expressed in many cancers, and could be potentially useful in cancer diagnosis, prognosis, and therapy.

Applications:	ELISA, WB, IHC
Name of antibody:	ELAVL1
Immunogen:	Fusion protein of human ELAVL1
Full name:	ELAV like RNA binding protein 1
Synonyms :	HUR; Hua; MeIG; ELAV1
SwissProt:	Q15717
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human lung cancer and human brain
IHC Recommend dilution:	50-200
WB Predicted band size:	36 kDa
WB Positive control:	293T, A431, NIH/3T3, hela and hepG2 cells
WB Recommended dilution:	500-2000
