

兔抗 ELOB 多克隆抗体

- 中文名称：兔抗 ELOB 多克隆抗体
- 英文名称：Anti-ELOB rabbit polyclonal antibody
- 别名：elongin B; SIII; TCEB2
- 相关类别：一抗
- 抗原：ELOB
- 储存：冷冻（-20℃）
- 宿主：Rabbit
- 反应种属：Human, Mouse, Rat
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

技术规格

Background:	This gene encodes the protein elongin B, which is a subunit of the transcription factor B (SIII) complex. The SIII complex is composed of elongins A/A2, B and C. It activates elongation by RNA polymerase II by suppressing transient pausing of the polymerase at many sites within transcription units. Elongin A functions as the transcriptionally active component of the SIII complex, whereas elongins B and C are regulatory subunits. Elongin A2 is specifically expressed in the testis, and capable of forming a stable complex with elongins B and C. The von Hippel-Lindau tumor suppressor protein binds to elongins B and C, and thereby inhibits transcription elongation. Two alternatively spliced transcript variants encoding different isoform
--------------------	---

	s have been described for this gene. Pseudogenes have been identified on chromosomes 11 and 13. [provided by RefSeq, Aug 2008]
Applications:	ELISA, IHC
Name of antibody:	ELOB
Immunogen:	Fusion protein of human ELOB
Full name:	elongin B
Synonyms:	SIII; TCEB2
SwissProt:	Q15370
IHC positive control:	Human colorectal cancer
IHC Recommend dilution:	30-150
