

兔抗 RHOH 多克隆抗体

中文名称: 兔抗 RHOH 多克隆抗体

英文名称: Anti-RHOH rabbit polyclonal antibody

别名: ras homolog family member H; TTF; ARHH

相关类别: 一抗

储存: 冷冻 (-20℃)

宿主: Rabbit

抗原: RHOH

反应种属: Human, Mouse

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	The protein encoded by this gene is a member of the Ras superfamily of guanosine triphosphate (GTP)-metabolizing enzymes. The encoded protein is expressed in hematopoietic cells, where it functions as a negative regulator of cell growth and survival. This gene may be hypermutated or misexpressed in leukemias and lymphomas. Chromosomal translocations in non-Hodgkin's lymphoma occur between this locus and B-cell CLL/lymphoma 6 (BCL6) on chromosome 3, leading to the production of fusion transcripts. Alternative splicing in the 5' untranslated region results in multiple transcript variants that encode the same protein.
Applications:	ELISA, IHC

Name of antibody:	RHOH
Immunogen:	Full length fusion protein
Full name:	ras homolog family member H
Synonyms:	TTF; ARHH
SwissProt:	Q15669
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human tonsil
IHC Recommend dilution:	40-200
