

兔抗 PICK1 多克隆抗体

中文名称：兔抗 PICK1 多克隆抗体

英文名称：Anti-PICK1 rabbit polyclonal antibody

别名：PICK; PRKABP

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：PICK1

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

The protein encoded by this gene contains a PDZ domain, through which it interacts with protein kinase C, alpha (PRKCA). This protein may function as an adaptor that binds to and organizes the subcellular localization of a variety of membrane proteins. It has been shown to interact with multiple glutamate receptor subtypes, monoamine plasma membrane transporters, as well as non-voltage gated sodium channels, and may target PRKCA to these membrane proteins and thus regulate their distribution and function. This protein has also been found to act as an anchoring protein that specifically targets PRKCA to mitochondria in a ligand-specific manner. Three transcript variants encoding the same protein have been found for this

	gene.
Applications:	ELISA, IHC
Name of antibody:	PICK1
Immunogen:	Synthetic peptide of human PICK1
Full name:	protein interacting with PRKCA 1
Synonyms :	PICK; PRKCABP
SwissProt:	Q9NRD5
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human thyroid cancer and Human liver cancer
IHC Recommend dilution:	25-100
